THE REAL MEDDLERS.

The sharers in the benefits of monopolis protest egainst "meddling with the tariff."
What business wants, they say, is stability. No public question can be settled until it is settled right. There can be no stability

without fustice It is not right to raise \$100,000,000 a year in excess of the Government's needs. It is

AW ALMONER OF WEALTH.

As the almoner of wealth, the late Mrs. Asron realized to the full its higher duties and opportunities. She disarmed the criticism which the selfish use of riches often justly evokes. Not only her purse but her personal efforts were devoted to good works. Thousands came within the circle of her benefactions, and thousands will feel the loss of her helping hand and kindly word.

And even more important than her innumerable charities was the shining example which she set to other women of wealth Mrs. Asron did more than anybody else in New York to make philanthropy fashionable. It was a good fashion to set, and is a good fashion to follow.

Well-directe ? charity pays better dividends than hoarded millions, and Mrs. Aston was a rich woman in the best sense of the word.

THE OHIO WAY.

In "a few hours" after the sentence of ex-Bank President HARPER to ten years' imprisonment he was conveyed to the Penitentiary and began serving out his term.

This is the Ohio way of dealing with a bank wrecker and robber.

No Western Reserve Judge interposed to stay the execution of the law. No Judge of a higher court, in chambers remote from the trial, interfered to save the rich robber. No highest court solemnly set aside the trial because too much proof of the criminal's guilt was admitted in evidence.

HARPER was guilty. He was proved guilty. He went straight to prison. The SHARP precedent doesn't prevail in Ohio.

THE BAID HAS REGITA.

The Treasury-raiders are already charging upon the surplus.

Bills aggregating nearly \$8,000,000 for pub. lie buildings in ambitious villages and fourcorner hamlets were introduced in the Senat yesterday.

And more are coming, for every conceivable purpose. It is so easy to spend other people's money !

Stop that surplus !

TER TWO L'S.

According to a Philadelphia Coroner " liquor and love are the two leading producers of crime" in that city.

The Quaker City has adopted high Heens as a protection against liquor. Why should it not try some measure of restriction for love?

Prohibition is as impracticable in one case as in the other. Men have drank, and men and women have loved, from "way back" to the present time. But what cannot be altogether prevented may perhaps be restricted and regulated.

Philadelphia will win a new distinction if she can lessen the evil and the suffering caused by the two L's.

that a ready-made fortune is a misfortune to the average young man. The hard scrabble is the best thing for nine boys out of ten, whether their fathers are rich or poor. The strength of character and self-reliance that comes of a Spartan training are worth more than millions, for they can achieve millions and much beside of far greater value.

The best medicine for hypochondria is hard work.

A bronze statue of St. Nicholas in Central Park? It's a happy thought. Surely, of the many good things introduced by the Dutch settlers of New York, nothing has such enduring popularity as the genial, generous and ever-welcome personality of Santa Claus. Give him a statue by all means. If there is any lack of funds the children's pennies will be ready.

attendants are anxious for another week, and although their labor has been constant they are eager to continue it. The solid members of the committee, however, as they look at the undiminished crowds thronging the hall, greater now than a week ago, have almost decided that the tireless though persistent workers need rest.

"It's all well enough," said one lodge member, "for those who stroll about the hall to want the fair continued, but I fear it's presuming too much on good nature to him \$12,000 for the hall to want the fair continued, but I fear it's presuming too much on good nature to ask for any more of our young ladies' time."

Despite this fact, and the fact as well, that sales of articles are being made all the time, the stock on the various tables seems undiminished. Indeed, the variety appears greater now, and should one be in a dilemma as to to the choice of a Christmas present to his best girl, all he need do is to visit the hall, glance about the tables, with their burdens of pretty things, and he is certain to find something to suit his fancy.

One of the patrons of that theatre sent her a letter, beginning, "Dear Little Miss French," congratulating her on her success, and saying how he had enjoyed her performance. Now, Miss French is certainly aware that she really is—most Now, Miss French is certainly aware that she looks younger than she really is — most women are aware of such a fact—but she had never been mistaken for a child before. She did not answer the letter, and an enormous French china doll was shortly forwarded to her with a letter which the writer asked her to acknowledge. He got the acknowledgment. It came in the form of a courteous note from Charles Evans, saying that his wife had duly received the beautiful doll, which she intended giving to her little boy Evan, who was five years old. Miss Julia Marlowe, who appeared as "Juliet" at the Star Theatre last evening, is the niece of the veteran manager, Col. R. E. J. Miles, and was born in England. Col. Miles's sister-in-law, Miss Dow, whom for the last twelve or fifteen years the manager has been accustomed to look upon as the best stage manager in the country, was the first to recognize Miss Marlowe's ability. He took the young girl in hand about three years ago, and since that time Miss Marlowe has studied and rehearsed on an average something like six hours a day. time Miss Marlowe has studied and rehearsed on an average something like six hours a day. Miss Dow was intensely anxious about the result of her young charge's debut at the Bijou Opera-House some weeks ago, and was far more nervous than Miss Marlowe herself. The young setress, after playing this week at the Star Theatre, will "rest" until after the holidays, when she will make a tour of six weeks under Col. Miles's direction. Next season she will be regularly brought forward as a star, time having already been held for her in the principal cities by energetic Mr. W. W. Randall.

Miss Lillian Olcott will probably begin her next season at the Fourteenth Street Theatre in August. In addition to "Theodora" she will appear in "The Lady of Lyons," "Romeo and Juliet" and possibly a new ro-mantic play. Miss Olcott is extremely ambi-

"Dreamland" is certainly a charming volume for children, though the stories are not conspicuously modern. The most "modern" tale is that which deals with the mermaid, who was afraid of getting caught because she knew she would be exhibited in a Bowery museum, though she wouldn't mind being shown in Broadway for a dollar and a half. "Dreamland" is nicely illustrated by Alfred Thompson. If Mr. Thompson would only confine himself to illustrating books, instead of trying to write librettos for comic operas!

The cast of the burlesque called "Faust," which is shortly to be produced, will include Miss Fay Templeton as Faust, George Fortescue as Margaret, A. S. The principal feature in Dockstader's partial change of bill is the buriesque, "Josef Hoffman's Sister," in which ton-year-old Master Albert Weinstein displays his skill. He made his debut last night in a Chopin waitz, one of Schulhoff's mazour-kas and an improvised theme with novel effects. The boy is decidedly clever and modest withal. His execution was capital and his touch sure. He was rescaled several times. Lew Dockstader has a new and side-spitting song about the Sunday-school boy, which brings down the house, and Frank Howard has just added "Only a Blue Bell" to his pleasing repertoire.

ATTRACTING BARGAIN HUNTERS.

An Enterprising Scheme Worked by a Dealer in Cheap Clothing.

It is not an uncommon thing to see bucksters in Park row pushing hand-carts laden with handkerchiefs, neckties, towels or other small stuff bearing a legend announcing that they are being sold for less than nothing because they were damaged at sea in a wreck or Generally the thoughtful reader of the an-

Generally the thoughtful reader of the an-nouncement learns for the first time in read-ing it that there has been any such accident. The idea is ridiculous, but it is a fact that the statement that the goods have been thus damaged makes a readier sale for them, be-cause buyers imagine that they must be sold cheaper than if they had not been on the broken ship. broken ship.

Does Mr. Welch Really Mean This?

The ladies connected with the children's home at White Plains are sending out for contributions toward erecting a hospital in North street, one of the most aristocratic neighborhoods of that town. the most aristocratio neighborhoods of that town. One of these letters fell into the hands of John Welch, a New York grocer. He prepared a letter to-day to a prominent society lady in New Rochelle, who had asked for his contribution, inclosing a check for \$100, and saying that he takes great interest in the colored people, and that he is thinking of building a hospital for them in New Rochelle near where this lady lives, and that connected with this hospital will be a home for poor pickanninies who are unable to get a home elsewhere. Mr. Welch says that he means business.

the Collection was a Repre

This took the McGlynn faction by surpris

that the St. Stephen's collection would not be more than \$200 or \$300.

Some explained the amount on the score that it is the Pope's jubilee year and the contributions would naturally be larger. Others did not hesitate to openly charge that the politicians had banded together to help Father Colton out in the matter of this collection, and that Tammany Hall had contributed \$500 of the amount, while \$300 of it could be traced directly to County Democracy sources. Still others accounted for the large collection by saying that two prominent ladies of the congregation, Mrs. Iselin and Mrs. Dr. Burt, had collected the major portion of it outside the parish and had turned in the result of their work in a lump, it being added to the actual collection, which they said was but little more than \$300.

The Rev. Father Colton was questioned by a World reporter on the subject. He said:

"Yes, we had a large Papal collection. Our parish was fifth in the diocess. And what was particularly gratifying about it was that it was a thoroughly representative collection. The largest contribution was \$50, and there were three such.

"The balance was in small amounts. Nothing was collected outside the parish, and neither Tammany Hall nor the County Democracy added their mite. I wish they had given the sums they are reported to have given; then I would have been able to show a much more respectable collection in the matter of size.

"As it is, the amount collected was three times as great as that raised for the same purpose last year."

BLOWED OUT THE SUN.

I have a little boy three years old, named Beonard. One day he was out at play and the sun became clouded. He came into the house and said to his grandmother:

"Well, gamny, I have come in."

"What have you come in for, Lenny?"

"Well, "he says, "they have blowed the sun out and I thought I would come in and go to bed, to the sun out and I thought I would come in and go to bed, to the sun out and I thought I would come in and go to bed, to the sun out and I thought I would come in and go to bed.
